PROJECT WORK:

Engineering Clinics— *Hand Gesture Controlled Vehicle*

This project presents a Hand Gesture Controlled Vehicle using Arduino, which can be controlled by a simple hand gesture. According to the movement of the person's hand, the accelerometer starts to move. It is based on 3 axis of accelerometer and the vehicle moves in four directions forward, backward, left and right.

Quiz game—*Python Project*

This project represents a simple game that tests your knowledge about the whole world by merely choosing the correct option out of the choices given.

It includes

ATM Transaction Program — *Java Project*

It is a project that depicts the functioning of a real transaction machine.

It uses the concept of methods and constructors or in a nutshell we can say it uses various concepts of Object Oriented Programming and is a menu driven program
